Assignments

We will explore the tools you can use to best meet the assessment goals for your course.

Participants will be able to:
1. Understand how Canvas uses assignments to assess students
2. Create assignments and assignment shells in multiple areas of Canvas
3. Modify assignments using options
4. Effectively use assignment groups to add structure and organization to the course

Assignments

In Canvas, an assignment includes any student assessment that you will grade. Regardless of where you create an item in Canvas, if it will be graded, then it will appear in the Assignments tab.

Assignment Types

There are 4 ways* to assess student outcomes:

- **Assignments** - Students submit assignments such as files, answer text or submit a URL
- **Graded Discussions** - Students engage in text dialogue
- **Quizzes** – Graded/Non-graded Quizzes, and Surveys
- **External Tools** - Assignment linked to an enabled course app

*This handout will only focus on Assignments (Student submitted work). Discussions, Quizzes and External Tools are covered in future workshops.

Creating Assignments

Assignments can be created through the Assignments page, Modules and the Calendar.

**Method I (Preferred)**
Creating an Assignment from the Assignments navigation page link.

1. In Course Navigation on the left, click the Assignments link.
2. In the top right corner of the assignment screen click the maroon +Assignment button.

Tips and Notes

For more details on best practices for using Assignments [https://community.canvaslms.com/docs/DOC-2614](https://community.canvaslms.com/docs/DOC-2614)

Any Assignment you create and publish on the Assignments page will automatically show up in the Grades, Calendar, and Syllabus features so students can view them.
3. Enter assignment name

4. Add assignment instructions, detail and description in main body.*
(Details can include files, links and other media).

5. Select assignment options
   a. **Points**
      Enter the desired point value for the assignment.
   b. **Select Assignment Group**
      For grading and organization all assignments should be in a group (e.g. Papers, Essays, Quizzes, Reading Responses etc.)
   c. **Display Grade as**
      Grade can be displayed as points or letter grade
   d. **Submission Type**
      The desired way students are expected to submit their assignment

   1. **No Submission**
      Students do not submit work. This assignment is used to create additional columns in the Gradebook. This option can also be used for assignments with more than one grade.

   2. **Online Submission** –
      Students submit work either by text entry in Canvas, URL, media, or upload file.
3. **On Paper**
Students submit printed assignments. A column is created in the Gradebook for grading purposes.

4. **External tool**
Students submit work using an external app enabled in the course. A link to the external tool must be provided.

e. **Group assignment**
   Enable for group work options

f. **Peer Review**
   When enabled, students can review, score and provide feedback on each others' work. Faculty can assign the reviewer or automatically have the reviewer assigned.

g. **Moderated Grading**
   Enable to allow multiple reviewers to grade student's work.

h. **Assign**
   Enable to restrict assignment availability dates. Assignment can be assigned to specific individuals, groups, or the entire course section.

i. **Save Assignment**
   Faculty have the option of creating a draft of the Assignment or publishing to the course.

**Method II**
Creating an Assignment shell from the Modules page

1. To add a new assignment shell, click **Modules** link in the Course Navigation.

2. Click add + button to add item to Module

   ![Module image]

3. In the add Assignment window select
   a) Select [New Assignment]
   b) Edit assignment name
   c) Add item

---

Tips and Notes

- For more details on best practices for assign an assignment to a course group
  https://community.canvaslms.com/docs/DOC-2652

- Definition: Moderated grading allows multiple reviewers to grade a student’s work and create draft or provisional grades for an assignment
  https://community.canvaslms.com/docs/DOC-5651
An assignment shell has been created. To edit the unpublished shell assignment options, click the assignment link in the module. (Follow steps to create an assignment outlined in Method I.)

**Method II**

**Creating an Assignment shell from the Calendar**

Creating an event on the calendar creates an assignment shell which is a placeholder for the assignment. Assignment shells created in the Calendar can be published.

In Global Navigation on the left, click Calendar.

Click + to create new event.
1. Click **Assignment** tab
2. Enter assignment title
3. Enter assignment due date
   - Click the calendar icon or enter manually
4. Select Calendar (Course)
5. Select Assignment Group
6. Publish
7. Submit

*More options - opens the create Assignment window.*

## Setting up Assignment Groups

Assignment groups are a simple way to organize and manage multiple assessments (Discussions, Quizzes, Assignments, etc). Faculty can use assignment groups to set final grade weights for different groups.

**To create an Assignment Group:**

1. Click on the **Assignments** button in the course navigation menu.
2. Click **Add Group** button in top right hand corner.
3. Type in a name in **Group Name**, click **Save**.
   *Repeat steps 1-3 to add additional groups as needed*
Assignments appear nested under Assignment groups.

**Assignments Student View**

Students cannot see unpublished assignments or unavailable assignments.

**Instructor View**

The unpublished assignment does not appear on the students' view of the Assignment page.
